"Getting what you want is success; and success is an effect, coming from the application of a cause. Success is essentially the same in all cases; the difference is in the things the successful people want, but not in the success. Success is essentially the same, whether it results in the attainment of health, wealth, development or position; success is attainment, without regard to the things attained. And it is a law in nature that like causes always produce like effects; therefore, since the success is the same in all cases, the cause of success must be the same in all cases." Wallace Delois Wattles (1860-1911) was an American author. As a New Thought writer, he remains personally somewhat obscure, but his writing has been widely quoted and remains in print in the New Thought and self-help movements. Wattles often travelled to Chicago, where he gave "Sunday night lectures" among several leading New Thought authors. He studied the writings of Georg Wilhelm Friedrich Hegel and Ralph Waldo Emerson and recommended the study of their books to his readers who wished to understand what he characterized as "the monistic theory of the cosmos." Wattles' best known work is a 1910 book called *The Science of Getting Rich in which he explained how to become wealthy. Discover an Abundant Life in your Present Condition---* Are you tired of living in your past? Are you sick and tired of your past coming up every time you try to go up? Are you just tired of your past messing with your blessings? It may seem like your life is as good as it will get, until you discover that there is a better way. Many people still live in a past experience that hinders them from living in an abundant future. Abundant living comes in different ways depending upon what we feel true abundance means. Material abundance is nice to have, but spiritual abundance is what we must have. One of today's buzz-phrases is 'if it ain't broke, break it.' There are mind-sets that haven't yet been broken that need to be broken. One in particular, God is punishing me and that's why I'm getting what I'm getting. This type of mentality is not scriptural and I'm going to deal with it in this book. Your past may be uncomfortable, but it's not unforgivable. The scriptures doesn't tell us in all your getting, get

things, but it does tell us, in all your getting, get an understanding. In knowing this, God created us to be abundant in Him, but we deviated from being complete in Him. Therefore; we must seek to understand and we will discover, How to get pass our past. The Miracle! I went from a carefree bachelor to a fierce protector. Molly Exhausted and scared, I fell asleep in an empty room and came awake to find the gaze of three naked men on me. It turned out I’d found my way into the shower room of the Boston Bay Vikings—I’d never heard of them. However, it was the fourth man to appear who gave me hope. From the creator of the Pussyhat Project comes a manifesto for every woman to create her own distinct and original path to joy, success, and impact. On January 21, 2017, millions of protestors took part in the Women’s March, and many of them created a “sea of pink” when they wore knitted pink “pussyhats” in record numbers. The pussyhat swiftly found its place on the cover of TIME and the New Yorker, and it ultimately came to symbolize resistance culture. Creator of the Pussyhat Project, Krista Suh, took an idea and built a worldwide movement and symbol in just two months. But like so many women, Krista spent years letting her fears stop her from learning to live by her own rules. Now in DIY Rules for a WTF World, Krista Suh shares the tools, tips, experiences, “rules,” and knitting patterns she uses to get creative, get bold, and change the world. From learning how to use your own intuition to decide which rules are right for you to finding your inner-courage to speak up fearlessly; from finding what your passions are (this might surprise you!) to dealing with the squelchers out there, DIY Rules for a WTF World not only inspires you to demolish the patriarchy, but also enables you to create your own rules for living, and even a movement of your own, all with

It plays out regularly with our partners, children, employers, and businesses we patronize. Sometimes we don't bother to ask for what we want, even when it's perfectly reasonable, thinking it will create hard feelings or spark an argument. Often, it's because we don't think we can succeed in getting what we want. But nothing could be further from the truth. How to Ask for What You Want and Get It: Common Sense Tips That Work will help readers learn how to ask for what they want and get good results. It teaches them how to stay in the game by using the right words. It also shows how to build rapport by using positive body language. The more you know what makes people operate as they do, the better chance you'll have of helping them see things your way. The most important aspect to negotiating anything is getting the other person on your side. That means the person you're asking has to like and respect you enough to do what you want. Most of the advice in this book employs mindfulness techniques. The mindfulness movement helps people live in the moment, speak more effectively to one another, and settle problems peacefully. Tony Burroughs was a young man living in Hawaii, when an older philosopher sage took him under his wing and became his mentor at an exotic fruit farm on the big island. Over a period of ten years, Tony learned how to farm as well as "The Information," a series of oral lessons, comprising a body of

deep teachings about the very meaning of life, the history of mankind, and how to not just exist but to evolve and live a meaningful life filled with love, peace and abundance. A core teaching was in regard to intention-setting and Tony and two friends started a weekly circle to try it out. This first humble circle of three people had dramatic and life-changing effects that have resulted in Tony Burrough's life-long mission to guide others in the art of manifesting the best in themselves, their lives, and for the highest good of all. The tenet of Get What You Want is simple, powerful and profound: "that which you are reaching toward is also reaching out toward you." And, for the first time, Tony has gathered many of the key teachings of "The Information" into one book. Get What You Want shows how to set your intention to have that which you desire come to you as easily and effortlessly as possible. Make the call expecting people to see you. Expect them to treat you with respect. Expect them to listen to you. Expect them to answer your questions. Expect them to buy. Expecting things to happen will have a huge impact on the results. Once you master this skill you will never feel insecure or worried about business. (This eBook is part of a series: "The More Gross Profit 13 eBook Sales Course". Each eBook is approximately 100 pages and has 7 lessons. The course includes over 600 contributions from successful salespeople who have gone through the training.) From the author of "Locas" comes an arresting novel of desire and ambition set among the gyms and street fights of East L.A.'s boxing hopefuls. "Eloquently (captures) the struggles of being poor and Mexican-American in Los Angeles."--"Chicago Tribune." When we enter into a negotiation, we simply don't know everything that we need to know. What this means for us is that we've got to use the negotiation to do some exploring - we've got to get answers to the questions that are unanswered when we start. What You'll Find Inside: GIVING TO GET: HOW A SALES NEGOTIATOR MAKES CONCESSIONS 3 THINGS EVERY SALES NEGOTIATOR NEEDS TO KNOW HIDDEN NEEDS DRIVE SALES NEGOTIATIONS HOW TO WIN A RACE WHEN YOU'RE NOT THE FASTEST RUNNER In order to accomplish this we're going to have to make sure that we have the time that we need to think about what the other side is telling us. When they hit us with a lot of facts and stats to back up their position, we need to take the time to understand where all of these numbers came from. In order to get the deal that we want, we're going to have to give in on some of the issues that are being discussed. What issues we make concessions on and how we go about making those concessions is very

important. Done correctly, we'll get closer to the deal that we want. In order to get better at this negotiating thing, we need to understand how to use all of the tools that are available to us. This includes the telephone. Additionally, it sure would be nice if we could get some professional negotiators to share with us how they have become so successful. One of the things that we need to be aware of during a negotiation is that we can't always trust what the other side is telling us. We need to learn to not believe the other side. This also means that we should get some guidance from someone who has done all of this before. Although it's not a word that a lot of us use very often, haggling is a critical part of any negotiation. We need to learn what it is and how to do it. The more that you talk with the other side, the better your chances of learning what their hidden needs are. A negotiation can take some time to complete. This means that as negotiators we need to learn how to be persistent in order to get what we want. We may not have the best product, the best price, or be the most competitive but we can still walk away with the deal that we want.
